		25X1.
(2)	were on training missions. The twin-engine, low-wing monoplanes probably were LI-2s. The occupation of the Castle has not been clearly determined. There is a possibility that the headquarters of the regiment is located there. The officers wearing parachute badges may be connected with the twin-engine, low-wing monoplanes observed at the field. The officers may have been at the Castle for briefings on maneuvers which may be scheduled to be held in the area of the Second Air Army.	
(23)	the	
	Tuel dump, a minor installation, was located in the eastern sector of the town, on a road leading to the railroad line.
